THE ULTIMATE IN STABILITY
LIGHTWEIGHT & ROBUST

STANDARD

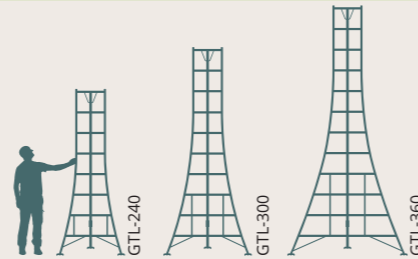

The Standard Tripod Ladder from Hendon offers a practical, well-designed solution to topiary, bush, tree or hedge trimming at height on uneven ground or lawns. With an incredibly stable foundation thanks to its three-leg design and wide base, this ladder is stable on uneven ground, meaning you can use the Tripod Ladder in complete confidence, safely. Able to handle a Safe Working Load 150kg.

HEAVY DUTY

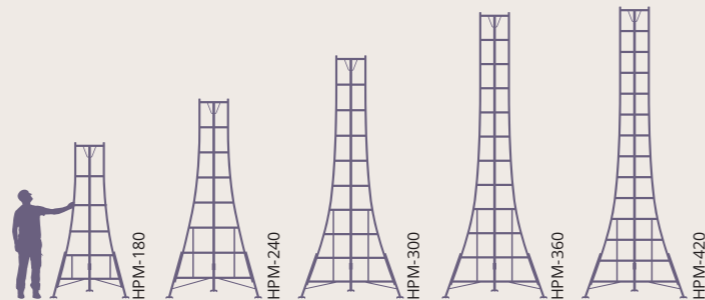

The Heavy Duty Tripod Ladder from Hendon has been produced to the same excellent design as the standard ladder, but with larger rungs, for a Safe Working Load of 150kg.

MODEL	STEPS	HEDGE HEIGHT	HEIGHT	WIDTH	DEPTH	STORAGE HEIGHT	EXT. HEIGHT	EXT. WIDTH	EXT. DEPTH	PLATFORM HEIGHT	FRONT LEG ADJ. INCR	BACK LEG ADJ. INCR	WEIGHT (KG)

3 LEG ADJUSTABLE

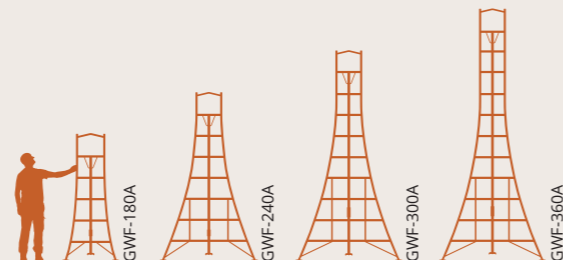

With three fully adjustable legs, this is the most versatile Tripod ladder in the Hendon range, offering the same stable performance as the Standard Tripod Ladder, but remaining lightweight due to the aluminium construction. Able to handle a Safe Working Load of 150kg.

PLATFORM

Hendon's Platform Tripod Ladder retains the same features of the standard Tripod Ladder, while offering additional security and peace of mind whilst working with your feet off the ground. A flat top allows you to rest baskets or tools. The ladder is made from welded aluminium alloy extrusions, meaning it is lightweight and robust. Able to handle a Safe Working Load of 150kg.
