

PLAY WITH GRAVITY

# ROLLOTUBE

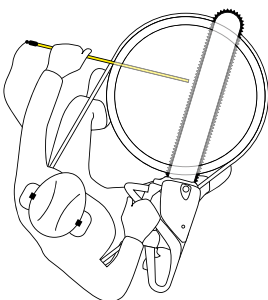

REF.

FTC/RT2

## USE

When sectional felling, as you are working on the trunk and you are «topping down» sections.

The rod slips into the kerf, prevents the guide block from being pinched, and easily aids movement of the logs by rolling across the rod.

**WARNING!**  
WHEN RELEASING  
THE LATCH TO REWIND  
THE CORD, HOLD THE  
ROLLOTUBE IN YOUR HAND  
UNTIL IT HAS FINISHED.

## TECHNICAL DATA

Fiberglass rod 66 cm long and 6 mm in diameter. For 3/8» chains and larger.

If the rod breaks or comes in contact with the chainsaw, replacement rods can be purchased (ask your seller).
